

Spicing technology: Fitting tools for mechanical fasteners

Brief outline

Simple fitting tool for continuous insertion of wire hook fasteners with idler roller. Can be used for different types of fastener. Belt can be moved.

Applications

- Belt thicknesses of 1.5 – 9 mm
- Belt widths max. 1200 mm in one step; unlimited because belt can be moved.
- Can be used in all industries and segments
- For all belts without having to de-install parts of conveyor; quick to insert and take out; especially for belt repairs

Supplied as

Basic tool without combs and mechanical fasteners

Accessories

- Combs
- Mechanical fasteners

Spare parts

No spare parts available

Tools can be sent for repair to the Forbo Siegling service department. You can also lease tools on request.

Contents

Preparation tools

- for cutting
- for splitting/peeling
- for grinding
- for punch cutting

Splicing tools

- for bonded splices – heating presses
- for melt splices – heating clamps
- for melt splices – heating presses
- for melt splices – special heating tools
- for mechanical fasteners

Type key

SC - RL - 0 / 350

- * SC = fitting tools for mechanical fasteners
- ** RL = rolled splice tool
- FS = comb

For the combs the additional designation means

- 1 = HS14, HS15, HS16, HS17, HS18, HS19
- 2 = HS01, HS12
- 3 = HS05, HS06, HS11
- 4 = HS09

SC-RL-0/350
